- Integrate data from various back-end services and databases
- Gather and refine specifications and requirements based on technical needs
- Create and maintain software documentation
- Be responsible for maintaining, expanding, and scaling our site
- Stay plugged into emerging technologies/industry trends and apply them into operations and activities

Requirements

- Proven working experience in web programming
- Top-notch programming skills and in-depth knowledge of modern HTML/CSS
- Familiarity with at least one of the following programming languages: PHP, ASP.NET, JavaScript.
- A solid understanding of how web applications work including security, session management, best development practices
- Creation of custom Facebook tabs (iframe) and various other social applications utilizing APIs.
- Hands-on experience with network diagnostics, network analytics tools.
- Basic knowledge of Search Engine Optimisation process
- Ability to improvise, troubleshooting, creative problem solving skills and learn new skills on the job.
- Strong organisational skills to juggle multiple tasks within the constraints of timelines.

Qualifications

Degree in Computer Science is an asset.

Expected Hours of Work: 8 hours per day, 6 days a week

[The Art of Living Foundation](#) is a global service organization that has made an extraordinary impact on local communities around the world. Made up almost entirely of volunteers, the Foundation has provided trauma relief and peace initiatives to thousands of people in places of raging conflict, areas devastated by war and natural disaster, inner cities and prisons. All interns and staff will be provided with room, board and opportunities to participate in complimentary Art of Living programs. We would be pleased to have students use the Service Program for college credit.

A nominal monthly stipend will be provided to cover personal expenses after probationary period.
